PODPOL03 Work Life Balance Policy

1. Policy Introduction and Background:

Merseyside Fire and Rescue Authority recognises that at various times of their lives, many people have different demands placed on them for reasons outside the workplace. These reasons can include anything from caring for children or other relatives to attending educational courses. People may also have different needs that impact on their ability to attend work at certain times. This could be because of a disability or because of religious commitments.

The Authority is firmly committed to providing opportunities which balance the needs of the Service with the needs of members of staff, so that all people can give of their best at work.

We are particularly aware that operational duties place significant demands on new and expectant mothers. We have developed enhanced maternity policies that address the special needs of pregnant women, those on maternity leave and those who return to work whilst breastfeeding.
